DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/29/2005 has been entered.

The amendment filed 9/29/2005 is acknowledged. The amendment filed 9/29/2005 has been entered. Claims 14-20, 22-26 are currently pending in the application and are addressed herein.

Applicant's arguments are addressed on a per section basis. The text of those sections of Title 35, U.S. Code not included in this Action can be found in a prior Office Action. Any rejections not reiterated in this action have been withdrawn as being obviated by the amendment of the claims and/or applicant's arguments.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: Figure 9A, Figure 9B, Figure 10A and Figure 10B. Furthermore, it appears that there is one Figure 9, two Figures 9A and one Figure 9B, however the specification only describes the drawing of Figure 9. It also appears that there are two Figure 10As and two Figure 10Bs (and no Figure 10 without the designation A or B), however the specification only describes the drawing of "Figure 10".

Art Unit: 1635

Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112, 2nd paragraph/ 35 USC §101

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 22 and 23 provides for the use of the compounds 4a and 6a, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Art Unit: 1635

Claims 22 and 23 are also rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

It is noted that amending the claims to include language which sets for the method step(s) which are performed in order to "use" the compounds of formulae 4a and 6a for sequence specific recognition of the compounds of claims 14 and 15 would obviate the instant rejection(s).

Additionally, claims 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 recites the limitation "a single of double stranded polynucleotide DNA or RNA compound according to claim 14". There is insufficient antecedent basis for this limitation in the claim because claim 14 does not recite any single of double stranded polynucleotide DNA or RNA compound.

Claim 23 recites the limitation "a single of double stranded polynucleotide DNA or RNA compound according to claim 15". There is insufficient antecedent basis for this limitation in the claim because claim 15 does not recite any single of double stranded polynucleotide DNA or RNA compound.

Art Unit: 1635

It is noted that amending claims 22 and 23 to remove the phrase "a single of double stranded polynucleotide DNA or RNA" would obviate this rejection.

Allowable Subject Matter

Claims 14-20, 24-26 are allowed.
